INTERNAUTICA 2018

Dragi prijatelji Internautice!

Že več kot dve desetletji se trudimo, da v okviru Internautice vsako leto pripravimo nove in zanimive vsebine, ki vzpodbudno delujejo na razvoj panoge, vzpodbujajo razstavljalce k aktivnem sodelovanju in privabljajo nove obiskovalce. Članstvo v zvezi najbolj elitnih svetovnih navtičnih sejmov IFBSO vidim predvsem kot priznanje za dolgoletno predano delo na tem področju, seveda pa je to članstvo hkrati tudi velika zaveza k spoštovanju pravil in kakovostnih normativov, ki v svetu veljajo na tem področju.

Pred sedmimi leti smo se s kolegi iz sosednjih držav dogovorili, da v okviru Internautice vsako leto realiziramo projekt izbora najboljših jadranskih plovil. Projekt izbora plovil in podelitve nagrad za >>Jadransko plovilo leta<<, pri katerem sodelujejo revija Navtika plus, Nautica magazine Italija, Nautički Magazin in Navtika Magazin & TV Show iz Srbije, More magazin Hrvaška, Yachts Croatia in Internautica, z mednarodno žirijo navtičnih strokovnjakov ni namenjen le ocenjevanju plovil in navtičnih dosežkov v tem delu sveta, to je tudi edinstvena priložnost za povezovanje ljudi različnih narodnosti, ki sobivajo in delajo na jadranskem območju. V konkurenci za priznanja so motorna plovila in jadrnice ter plovila, ki imajo poudarjeno jadransko noto, kar pomeni, da je njihova uporabnost prilagojena razmeram in zahtevam tega akvatorija.

Pred leti smo intenzivno začeli razvijati in podpirati ekološko usmerjenost razstavnih programov in tako bo letošnja Internautica, ki je uvrščena med uradne partnerje Evropske komisije pri projektu #EUGREENWEEK, ponovno poskrbela za predstavitev energetske učinkovito zasnovanih plovil in projektov, okolju prijaznih, trajnostnih in gradbeno učinkovitih tehnologij ter inovativnih pogonskih in hibridnih sistemov, ki zmanjšujejo porabo goriva in emisij v okolje.

INTERNAUTICA ni le navtična razstava temveč izjemna priložnost, da javnost osveščamo ter posredujemo informacije, ki so povezane s problemom onesnaženja morja in vplivi, ki škodujejo okoljskim, ekonomskim in kulturnim vrednotam morskega okolja.

Internautica slovi po tem, da skuša morje in načine za preživljanje prostega časa na morju čim bolj približati javnosti, zato vsako leto organiziramo različne športne dogodke, denimo že tradicionalni Internautica SUP Challenge, ki šteje za pokal Slovenije, priljubljeno regato in predstavitev starodobnih plovil, ob tem se nanizajo številni zabavni, koristni ali drugače zanimivi družabni dogodki. Tudi letos bodo organizirana različna strokovna predavanja - gost bo svetovno znani navtični ustvarjalec in projektant Tilli Antonelli, morjeplovec Miran Tepeš bo iz prve roke slikovito predstavil najnovejše dosežke, v sodelovanju z Delovo edicijo Svet kapitala pripravljamo posvet o poslovnih priložnostih, ki jih ponuja navtična industrija, predstavljene bodo mnoge novosti s področja športnega jadriranja, pomorske zakonodaje in izobraževanja. Največje zvezde dogajanja pa bodo seveda premierne predstavitve plovil in različni atraktivni, z morjem povezani dogodki, ki se bodo zvrstili v štirih sejemskih dneh.

Internautica ponuja s svojimi vsebinami veliko možnosti za strokovna srečanja, poslovne predstavitve, športne in družabne dogodke, kar nedvomno zagotavlja odlično priložnost za spletnje novih poslovnih vezi in prijateljstev.

Dobrodošli na Internautici 2018

Jurij Korenc
INTERNAUTICA 2018

PORTOROŽ, 17. - 20. MAJ 2018

PORTOROŽ, 17th - 20th OF MAY 2018

Dear Internautica friends.

Each year for over two decades, we have been endeavouring, within the frame of Internautica, to prepare new and interesting contents that have favourable effects on the development of the sector, to encourage exhibitors' active participation and attract new visitors. I perceive our membership in the association of the most distinguished nautical fairs in the world, IFBSO, above all as a recognition of longstanding dedicated work in this area, at the same time the membership calls for great commitment to respect the rules and quality norms that prevail worldwide in this sector.

Seven years ago, we agreed with our colleagues from the neighbouring countries each year to use Internautica's frame to realise the project of selecting the best Adriatic boats. With participants Navtika plus magazine from Slovenia, Nautica magazine from Italy, Nautički Magazin and Nautika Magazin & TV Show from Serbia, More magazin from Croatia, Yachts Croatia and Internautica, and including the international panel of nautical experts, the project of selecting and giving prizes for the "The Adriatic Boat of the Year Award" is designed not only for the assessment of boats and nautical achievements in this part of the globe, it also provides a unique opportunity to connect people of different nationalities who coexist and work in the Adriatic region. Motor and sail boats are competing for awards, but also vessels which emphasise their Adriatic character, which means that their functionality is adapted to the conditions and requirements of the Adriatic marine area. Some years ago we started to actively develop and support the environmental orientation of our exhibition programmes, and so this year's Internautica, listed among official partners of the European Commission in the #EUGREENWEEK project, again took care to present vessels and projects with energy-efficient design, environmentally-friendly, sustainable technologies and efficient constructions, as well as innovative propulsion and hybrid systems, reducing fuel consumption and environmental emissions. INTERNAUTICA is not only a boat show, but an outstanding opportunity to raise the awareness of the public and provide information connected to the problems of the polluted sea and its detrimental impact on the environmental, economic and cultural values of the marine setting.

Internautica is well-known for attempting to bring closer to the public the sea and various ways of spending free time at sea, and that is why each year we organise different sport events, such as the already traditional Internautica SUP Challenge, considered as the Slovenia Cup, a popular regatta and presentation of vintage boats, alongside numerous entertaining, beneficial or otherwise interesting social events. This year again different professional lectures

will be organised – we will host a world renowned nautical creator and designer, Tilli Antonelli, our seafarer Miran Tepeš will give a first hand and vivid picture of the latest achievements in the sector; in cooperation with Delo newspaper's special Svet kapitala (The World of Capital) publication we are preparing a conference on business opportunities in the nautical industry, and numerous novelties in the fields of sport sailing, maritime legislation and education will be presented. Certainly, the biggest stars of the fair will be the premiere presentations of boats, and various attractive events connected to the sea which will take place in the four days of our show.

With its programme, Internautica offers numerous opportunities for professional meetings, business presentations, sports and social events, all of which undoubtedly provide an excellent chance for developing new business ties and friendships.

Welcome to Internautica 2018

Jurij Korenc
INTERNAUTICA 2018

**Borut Pahor**

Predsednik Republike Slovenije
President of the Republic of
Slovenia

Spoštovani ljubitelji morja, dragi obiskovalci Internautice, cenjeni prireditelji in razstavljavci.

Internautica že triindvajsetič zapovrstjo naznanja pričetek slovenske navtične sezone in tudi letos sem s posebnim veseljem in ponosom sprejel častno pokroviteljstvo nad tem najpomembnejšim navtičnim sejmom na Jadranu.

V svoji dolgi zgodovini je Internautica postala eden izmed najbolj prepoznavnih simbolov slovenskega obalnega turizma in se potrdila kot prvak navtičnega razstavljanja doma in v tujini. Letos si, tudi zaradi svoje aktualnosti, zasluži posebno pozornost spremljevalni program, ki dopolnjuje premierno predstavitev plovil in navtične opreme. Problem naraščajoče količine plastičnih odpadkov se nam je s slikami onesnaženih obal našega morja pred dnevi predstavil z vso svojo uničujočo močjo.

V sodelovanju s projektom **#EUGREENWEEK** bodo tako predstavljene inovativne, trajnostne in učinkovite rešitve za okoljsko ozaveščena plovila in navtično opremo.

Internautica od blizu in daleč privablja številne obiskovalce in ljubitelje pomorstva, zato je pomemben steber in spodbujevalec razvoja slovenskega gospodarstva, inovativnosti in podjetništva. Razstavni prostori v času Internautice postanejo središče predstavljanja novih in inovativnih tehnologij, mesto izmenjave dobrih praks in prizorišče razprav o napredku, razvoju in priložnostih. Internautica je z leti postala nenadomestljiva priložnost za nadaljnji razvoj turizma in storitev, ki jih ponujamo gostom na slovenski obali.

Morje je mogočno in brezbrežno, vetrovi sežejo še dlje. Plovba nas lahko veliko nauči o življenju in njegovi minljivosti, o času in njegovi večnosti, in o človekovi in njegovi majhnosti. In nas obenem spomni, da smo najmočnejši, ko smo skupaj. Takrat zmoremo kljubovati še tako močni burji, ki jo zmoremo z znanjem in domišljijo pretentati, da dela v naš prid.

Ponosen sem, da Internautica tudi tokrat ni zgolj razstava, marveč je prostor navdiha, inovativnosti in sodelovanja. Všeč mi je, da bo letošnja prireditev najboljše doseglej.

Vsem obiskovalcem in razstavljavcem želim veliko prijetnih trenutkov na slovenski obali, prirediteljem pa namenjam posebne besede hvaležnosti za njihovo prizadevnost pri uveljavljanju slovenske navtične tradicije.

Dear sea lovers, dear Internautica visitors, dear organisers and exhibitors,

For the 23rd time in a row, Internautica marks the start of the Slovene nautical season and this year too it is a source of pleasure and pride for me to accept the honorary patronage for this most important nautical fair in the Adriatic.

Over its long history, Internautica has become one of the most distinctive symbols of Slovene coastal tourism, asserting itself as the champion of nautical exhibitions at home and abroad. Due to its topicality, the parallel programme of events accompanying the premiere presentation of vessels and nautical equipment deserves special attention this year. The problem of ever growing quantities of plastic waste, visible in the pictures of our polluted coasts a few days ago, has been on display in all its destructive power.

In connection with the **#EUGREENWEEK** project, innovative, sustainable and effective solutions for environment-conscious vessels and nautical equipment will thus be presented.

Internautica attracts numerous visitors and sea lovers from far and wide, and is therefore an important pillar and facilitator of Slovene economic development, innovation and entrepreneurship. During the Internautica fair, the exhibition spaces become a centre for demonstrating new and innovative technologies, a place where good practices are exchanged and where progress, development and opportunities are discussed. Over the years, Internautica has become an indispensable opportunity to further the development of tourism and services available to guests on the Slovene coast.

The sea is powerful and boundless, but winds reach even further. Navigation can teach us a lot about life and its transience, about time and its eternity, about humans and their insignificance. At the same time it reminds us that we are strongest when united. United, we can resist even the strongest bora wind, which by using our knowledge and imagination, we can turn to work in our favour.

I am proud that Internautica again is not only a show, but also a place of inspiration, innovation and cooperation. I am pleased to see that this year's event is the largest so far.

I wish all visitors and exhibitors many enjoyable moments on the Slovene coast, and I am especially grateful to the organisers for their dedication in promoting the Slovene nautical tradition.

Spoštovani gostje, cenjeni pomorščaki in ljubitelji morja!

Mednarodna razstava navtike Internautica je največji navtični praznik v Jadranu in zelo sem ponosen, da ga že 23. leto gostimo prav v naši občini Piran.

Vsako leto znova v Portorož privabi nepregledne množice obiskovalcev in obiskovalcev, ki izkoristijo čudovito priložnost, da se seznanijo z najnovejšimi in najbolj drznimi inovacijami navtičnih projektantov in proizvajalcev, odkrijejo plovilo svojih sanj ali le potešijo radovednost. Internautica je vsako leto znova organizirana brezhibno, ponudba izdelkov pa vrhunska, celovita in izjemno barvita.

Za vse, ki živimo z morjem in od morja, je zelo pomembno, da je Internautica tudi ekološko obarvana in podpira prizadevanja za zmanjšanje obremenitev morskega in obalnega okolja. Zato sem zelo vesel, da si je portoroška razstava plovil s svojo Zeleno avenijo izborila status uradnega partnerja Evropske komisije pri projektu #EUGREENWEEK.

Nautika je nedvomno zelo perspektivna in donosna gospodarska panoga, ki pomembno prispeva k blaginji piranske občine in jo približuje gostom, za katere se pravi oddih začne šele na valovih. Posebno vzdušje, ki spremlja predstavitev novosti in zanimivosti Internautice, jim destinacijo Portorž & Piran vsako pomlad predstavi v najlepši luči.

Prepričan sem, da bo tudi letošnji sejem presegel samega sebe. Tako je bilo vsako leto doslej, tudi v obdobju najhujše gospodarske krize, ki je začasno ohromila navtični trg. Poslovne vezi in prijateljstva, ki jih je Internautica spletla skozi svojo zgodovino, so postale trden temelj, na katerem se bo zagotovo uspešno razvijala tudi v prihodnje.

Organizatorjem za ves njihov trud in prizadevnost izrekam iskrene čestitke, gostom pa želim veliko užitkov ob ogledu razstavljenih plovil in navtične opreme.

Dobrodošli v Portorožu.

Dr. Peter Bossman

Župan Občine Piran
The Mayor of Piran Municipality

Dear guests, seafarers and sea lovers,

Internautica, the international boat show, is the largest nautical festival on the Adriatic coast and I am very proud of the fact that it is being hosted by our Piran Municipality for the 23rd year now.

Each year, Portorož attracts huge numbers of visitors who use this wonderful opportunity to get to know the newest and boldest innovations by nautical engineers and manufacturers, discover the vessel of their dreams, or simply satisfy their curiosity. Each year Internautica takes care of the seamless organisation of this event, its offer of products is high-end, comprehensive and extremely colourful.

For those of us who live with the sea and from the sea it is very important that Internautica has environmental protection in mind, supporting efforts to limit the environmental impact on the sea and the littoral. This is why I am very happy the Portorož boat show and its Green Avenue concept has won the status of the European Commission's official partner in the #EUGREENWEEK project.

The nautical industry is undoubtedly a very promising and profitable one, contributes significantly to the prosperity of Piran Municipality, and brings it closer to guests for whom the real holidays only start when they are on the waves. Each spring, with a special atmosphere that accompanies the presentation of Internautica novelties and points of interest, they can see Portorož and Piran at their best.

I am convinced that this year's show will again exceed itself. This has been the case every year now, even during the worst of the recent economic crisis, which caused the nautical market to dry up for a while. The business ties and friendships which Internautica has woven throughout its history have become a solid foundation that will surely develop further in future.

I congratulate the organisers for their efforts and commitment, and know that our guests will enjoy taking a look at the boats and nautical equipment exhibited at our boat show.

I congratulate the organisers for their efforts and commitment, and know that our guests will enjoy taking a look at the boats and nautical equipment exhibited at our boat show.

Welcome to Portorož.

**Japlec Jakopin**

J & J DESIGN

Naše morje

Moje morje je naše morje in morje vseh nas.

Kakor ga doživljamo mi, se je od Piranskega zaliva razlilo vzdolž Istre, po Jadranu, in skozi Jonsko morje do celega Sredozemlja.

In naše morje ni samo za piransko cerkvijo, ampak prav tako ob Mrtovcu ali Jabuki, na Itaki ali Zakintosu.

Sredozemlje ima edinstveno in karizmatično istovetnost. Povezuje tri celine in je zibelka zahodne civilizacije, na križišču vseh poti s severa na jug, ali z vzhoda proti zahodu. Tisočletne civilizacije so na tem kulturno rodovitnem substratu zgradile ideje in miselnost, ki je osnova naše duhovnosti – in bivanja.

Miriade lokalnih kultur, zlite v sredozemsko, so oblikovale vzorce preživetja, trajnostnega načina življenja, ustvarjalnosti in socialne strpnosti. Ti so postali vzor celotnega človeštva.

Ko se je v Jeruzalemu kralj David še pričkal s svojimi ženami, so Liburni na sredini vzhodnega Jadrana zgradili svoje mesto, ki so ga imenovali Jadra. Bili so odlični morjeplovci in ladjedelci, od katerih so se Rimljani učili gradnje ladij. Oboji so se na naših obalah zlili z Dalmati, Iliri in Etruščani. Do tega stičišča svetov – in kultur – so kasneje prišla najbolj na zahod razširjena slovanska plemena.

In zdaj smo prišli do čudovitega obdobja, ki ga niti slutiti nismo mogli. Bratstvo med evropskimi narodi in državami je zaživelo v skupni povezavi, ki bo kmalu odpravila še zadnje meje in prepreke – med plemeni, narodi in državami. Naše sredozemsko morje je postalo skupni dom vseh, ki imamo morje neskončno radi in ga nadvse občudujemo. S svojimi slanimi valovi, bleščečo svetlobo, prijaznim podnebjem, vonjavami borovega gozdička, melodijami škržatov, in izbiro najbolj zdrave prehrane nam podarja vse, kar nam v mestnem življenju manjka. Morda – na srečo – ne povsem večnega življenja, ampak balzam za dušo in korenito zmanjšanje biološke starosti.

O vsem tem razločno govorijo slikovne in besedne pripovedi Bojana Breclja, fotografa, pisca in človekoljuba, ki se s skoraj pol stoletja staro majhno leseno jadrnico odpravlja po Sredozemlju. Zapisuje resnične slike o ljudeh, ki s svojo zgodbo potrjujejo vse, kar smo zapisali o našem morju.

Naša naloga pa je, da morje ohranimo za naše otroke in vnuke vsaj tako čisto in lepo kot so ga nam zapustili naši predniki. To je pa že téma letošnje Internautice, ki je skupni imenovalec naše ljubezni do morja.

In želimo ji: na mnoga leta!

Our Sea

My sea is our sea and the sea of all of us.

The way we have experienced it, beginning from Piran Bay, the sea was spreading along Istria Peninsula, down the Adriatic and through the Ionian Sea, until meeting the entire Mediterranean.

And our sea is not only behind the Church of Piran, but also by the islets of Mrtovac or Jabuka, at Ithaka or Zakynthos.

The Mediterranean has its unique and charismatic identity. Connecting three continents, it is the cradle of Western civilisation, on the crossing of roads from the North to the South or the East to the West. In this culturally rich substratum, millennial civilisations developed their ideas and mentality, which are the foundation of our spirituality – and our being.

Myriads of local cultures blended in the Mediterranean culture and formed the patterns of survival, a sustainable way of life, creativity and social tolerance. These have set an example to all mankind.

At the time when King David was quarrelling with his wives in Jerusalem, in the middle of the East Adriatic, Liburnians built their own town, calling it Jadra. They were fine seafarers and shipwrights, from whom the Romans learned how to build their ships. On our coasts, Liburnians and Romans merged with Dalmatae, Illyrians and Etruscans. Later, Slavic tribes that spread the most to the West also reached this meeting point of worlds, and cultures.

And now we have come to the wonderful period which we could not anticipate. Brotherhood between European nations and states was realised in a common union which is soon bound to remove the last remaining borders and obstacles – between tribes, nations and states. Our Mediterranean has become the common home of all of us who feel immense love and incredible admiration for the sea. The gifts of its salty waves, brilliant light, mild climate, the scent of a pine grove, the songs of cicadas and the choice of the healthiest foods are all that we are missing in our urban lives. Maybe – fortunately – not quite eternal lives, but as a balm for our souls such gifts radically reduce our biological age.

All this is clearly depicted in the pictorial and verbal narrative by Bojan Brecelj, a photographer, author and philanthropist who has been setting sail in the Mediterranean for almost half a century in a small wooden yacht. He has recorded real images of people who, with their stories, confirm all what we have written about our sea.

However, it is our duty to preserve the sea for our children and grandchildren, so that it is at least as clean and beautiful as when it was left to us by our ancestors. And this is the focus of this year's Internautica, which is the common denominator of our love for the sea.

And we wish Internautica many more years to flourish!

JADRANSKO PLOVILO LETA 2018

Internautica že sedem let sodeluje pri izboru za nagrado »Jadransko Plovilo Leta«. Strokovna mednarodna komisija bo nominirala in nagradila najboljša plovila, ki so plula po Jadranu v preteklem letu. Za nagrado se lahko potegujejo vsa plovila, ki so bila izdelana in predstavljena v jadranski regiji med 1. januarjem 2017 in 31. aprilom 2018. Sodniki bodo določili točke (od 1 do 10) nominiranim plovilom ter podelili prvo nagrado plovilu, ki bo zbralo največje število točk. Če bo več plovil iz iste kategorije doseglo enako število točk, bo komisija plovila ocenjevala še v drugem krogu, da bi lahko določila zmagovalno plovilo.

STROKOVNA ŽIRIJA

Nikola Orešković

Samostojni projektant in vodja projektov. Delal je v hrvaškem Brodarskem inštitutu, sodeloval pri Elanovih modelih power, podpisan pa je še pod mnogimi drugimi projekti, med njimi je tudi Adriana 36.

Braslav Karlič

Ustanovitelj in glavni urednik najstarejše in najuglednejše hrvaške navtične revije More magazin. Navtik, ki pluje tako z jadrnicami kot motornimi barkami.

Dejan Ravter

Glavni urednik revije Navtika plus, dolgoletni novinar in urednik na področju navtičnega tiska ter eden tistih, ki ima v Sloveniji največ izkušenj pri plovbi z jadrnicami in motornimi plovili.

Niccolo Volpati

Je novinar že skoraj 20 let in v tem času je delal z mnogimi različnimi navtičnimi revijami. 5 let je ekskluzivno sodeloval pri reviji Barche. V tem času je testiral veliko motornih in jadrnih plovil različnih vrst in velikosti: od najmanjših čolnov do giga jaht. Njegova najljubša plovba je tista, ki jo bo šele opravil.

Jurij Korenc

Direktor Studia37, bivši predsednik IFBSO in snovalec mednarodne razstave navtike Internautica, ima trideset let izkušenj na različnih področjih navtike in plovbe, je mednarodno priznani strokovnjak in svetovalec za razvoj in trženje navtičnih blagovnih znamk in navtičnih sejmov.

Francesco Michienzi

Od leta 1995 do leta 1996 je pisal članke in izvajal testiranje plovil za navtično revijo. V letu 1996 je postal odgovorni urednik revije Entro e Fuoribordo. Med leti 1997 in 2002 je bil odgovorni urednik revije Caravan e Camper. Od leta 2002 naprej je odgovorni urednik internacionalne navtične revije Barche. Od leta 2011 do 2013 je bil odgovoren urednik navtičnih člankov v reviji Il Sole 24 Ore, v letu 2014 pa navtičnih člankov v reviji Il Giornale.

Luca Sordelli

Luca Sordelli, rojen leta 1966, je jadralski novinar s petindvajsetletnimi izkušnjami. Že od nekdaj je ljubitelj morja in plovil. Trenutno je zaposlen pri italijanski navtični reviji BARCHÉ. V preteklosti je že sodeloval s številnimi navtičnimi revijami in napisal knjigo "Moški in plovila", ki je zgodba o navtičnem turizmu v Italiji. Je strokovnjak za testiranje plovil, posebej poznan po prispevkih s podrobnimi tehničnimi recenzijami. Sodeluje tudi z italijansko online različico revije Wired in italijanskim športnim časopisom La Gazzetta dello Sport.

Darko Šupuk

Glavni urednik Yachts Croatia, vodilne revije s področja navtike in življenjskega sloga v jadranski regiji. Nekdanji član žirije World Yachts Trophies in urednik revije Nautica (hrvaška izdaja) ter vodja marketinga pri ladjedelnici Salona Yachts. Gospod Šupuk je tudi uveljavljen jadralski tekmovalac in večkratni prvak Hrvaške v različnih kategorijah, zmagovalac evropskega prvenstva, uvrstil se je med prvih deset na svetovnem prvenstvu in osvojil tretje mesto na priljubljeni svetovni jadralski turneji RC 44. Sicer pa je navtični novinar, ki testira motorna plovila in jadrnice ter piše recenzije.

Dejan Despotović

Obožuje morje in vse vrste plovil – motorne čolne, jadrnice in druge. K timu Nautičkega Magazina prispeva z izkušnjami, smehom in obširnimi znanjem o vinu. Je tudi odlični kuhar.

Dejan Vlaškalić

Ustanovitelj in glavni urednik Nautičkega Magazina za Srbijo in Črno Goro od leta 2004. Ne glede na velikost in razkošje, najprej pogleda v interior in sam načrt plovila. S kuhanjem nima izkušenj.

Andrej Justin

Navtični arhitekt, ki se je podpisal pod projekte, kot so Elan 23WA, JustinTen, Maxi Jena, RC44. Diplomiral na Westlawn Institute of Marine Technology v Ameriki, ustvarja v Sloveniji.

Ljubiša Jovanović

Član uredniške ekipe pri Nautičkem Magazinu, ki je ljubitelj večtrupnih plovil. Sicer je strokovnjak na številnih področjih, tako da ne bodite presenečeni v kolikor ga srečate v letalski kabini na katerem izmed letal. Mimogrede, je odlični kuhar!

Siniša Borojević

Mrina, pomorski arhitekt in mag. inženir strojništva

Specialist z 20 letnimi izkušnjami na področju tehničnih sistemov za upravljanje, oblikovanje, ladjedelništva, vzdrževanja, ladijskega in jahtnega inženiringa, zagonskih sistemov, spremljanja stanja in diagnostike rotacijskih motorjev, 3d modeliranja in 3d laserskega skeniranja.

NOMINACIJE IN ZMAGOVALCI ZA LETO 2018:

MOTORNA PLOVILA

1. Dinghy
 - ▶ **ZAR 79 SL**
 - ▶ **Brig eagle 10**
2. Športni motorni čoln do 20 čevljev:
 - ▶ **Sea ray SPX 190 OB**
 - ▶ **Quicksilver activ 605 open**
 - ▶ **Bella 620 Cabin**
 - ▶ Marino mustang
3. Športni motorni čoln od 21 do 40 čevljev:
 - ▶ **Invictus 370 GT**
 - ▶ **XO Explorer**

- ▶ **PLASTIC OCEAN**
- ▶ **THE OCEAN CLEANUP**

ADRIATIC BOAT OF THE YEAR 2018

INTERNAUTICA is the most important Adriatic International Boat Show, dedicated to promote the Marine lifestyle, Boating and supporting the environment ecological awareness among the general public.

For the 7th year in a row, we're proud to present the Adriatic Boat of the Year Awards.

An expert international panel of judges will nominate and award the best boats navigating the Adriatic last season. All boats manufactured and presented in the Adriatic region from January 1st 2017 to March 31st 2018 are eligible to win. The judging panel will assign points, from 1 to 10, to the nominated boats, and award first place to the boat with the highest score. In cases where more than one boat from the same category shares the same number of points, the jury will conduct further scoring to pick a winner.

JURY OF EXPERTS

Nikola Orešković

Independent designer and project manager, once employed with the Croatian Brodarski institut and Elan Power line boats. Author of numerous projects, among others Adriana 36.

Braslav Karlić

Founder and editor-in-chief of the oldest and most renowned Croatian boating magazine. He sails on both motor and sailing boats.

Dejan Ravter

Editor-in-chief with Navtika plus magazine, an experienced journalist and editor of nautical magazines. The one with the most experience in sailing and motorboats in Slovenia.

Niccolo Volpati

I've been a journalist for almost 20 years and I have worked for different boating magazines. For 5 years I've been exclusively involved in BANCHE. In my work I have tested a lot of power and sail boats of different kinds and sizes: from the smallest ones to the gigayachts. My best sailing is the one I have yet to do.

Jurij Korenc

CEO at Studio 37, former President of IFBSO and Executive Director of the International Boat Show Internautica, with thirty years of experience in boating and navigation. A recognized expert and consultant in marketing and development of nautical brands.

Francesco Michienzi

Since 2002 he has been editor in chief of the international boating magazine BANCHE. In 2014 he was responsible for the boating specials in the Il Giornale newspaper. From 2011 to 2013 he was responsible for the boating specials in the Il Sole 24 Ore newspaper. From 2000 to 2002 he was the editor in chief for the environmental magazine Aqua. From 1997 to 2002 he was the editor in chief of Caravan e Camper magazine. In 1996 he became editor in chief of Entro e Fuori bordo magazine. From 1995 to 1996 he wrote some articles and carried out boat trials for Nautica magazine.

Luca Sordelli

Luca Sordelli, born in 1966, is a yachting journalist with 25 years experience. He has always been a sea and boat enthusiast. At the moment he works for the BANCHE magazine. In the past he collaborated with several boating magazines and he wrote the book "Men and boats, the story of pleasure boating in Italy". Over time he has specialized in boat tests and technical editorials. He also works with Wired.it, La Gazzetta dello Sport.

Darko Šupuk

Editor in chief and publisher of Yachts Croatia, the leading yachting and lifestyle magazine in the Adriatic region. Former member of the World Yachts Trophies jury, editor of Nautica magazine (Croatian edition) and head of marketing for Salona yachts, Mr. Šupuk is an accomplished competitive sailor (multiple champion of Croatia in various dinghies and big boats, winner of European Championship medals, ranking among the top ten on the World match racing tour and third in the RC 44 World Tour), also the journalist who writes tests and reviews personally on motor and sailing yachts.

Dejan Despotović

He adores sea and boats, motor boats or sailing yachts – doesn't matter. In Nauticki magazin team he brings experience, laugh and great knowledge about wine. Perfect cook as well.

Dejan Vlaškalić

Founder and editor in chief of Nauticki magazin, distributed in Serbia and Montenegro since 2004. He first looks at the boat interior and floor plan, no matter of size and luxury. He knows nothing about cooking.

Andrej Justin

Marine architect, author of projects, such as: Elan 23WA, Justin Ten, Maxi Jena, RC44 etc. He graduated from Westlaw Institute of Marine Technology, USA. He currently works in Slovenia.

Ljubiša Jovanović

Multihull fan in Nauticki magazin editorial team. However, he is an expert in so many fields, so it is not surprise to meet him in airplane cabine on your flight. And he is excellent cook!

Siniša Borojević Mrina, Msc naval architect, mechanical engineer

naval architecture, asset management systems, design, shipbuilding, maintenance, ship and yacht engineering, commissioning, supervisor, oil&energy, offshore, subsea, tourist nautica, condition monitoring, diagnostic vibration structure and rotary motors, 3d modelling, 3d laser scanning, specialist with 20 years of experience on the technical systems.

NOMINATIONS & WINNERS FOR 2018

MOTOR BOATS

1. Dinghy:

- ▶ **ZAR 79 SL**
- ▶ **Brig eagle 10**

2. Sport motorboat up to 20 feet:

- ▶ **Sea ray SPX 190 OB**
- ▶ **Quicksilver activ 605 open**
- ▶ **Bella 620 Cabin**
- ▶ Marino mustang

3. Sport motorboat from 21 to 40 feet:

- ▶ **Invictus 370 GT**
- ▶ **XO Explorer**
- ▶ **Limo tender 34 Argo Navis**
- ▶ Beneteau antares 9
- ▶ Jeanneau Cap Camarat 7.5 BR
- ▶ Sea Ray SPX 230
- ▶ Jeanneau CC 7.5 BR
- ▶ Chris craft calypso 30
- ▶ Ranieri next 290 SH
- ▶ Invictus 280 GT
- ▶ Bayliner VR5 Cuddy
- ▶ Ganz ovation 7.6
- ▶ Rhea 35 open

4. Motor yacht up to 40 feet:

- ▶ **Cranchi T36 crossover**
- ▶ **Linssen GS 40 Sedan**
- ▶ **Jeanneau NC33**
- ▶ **Axopar 28 cabin**
- ▶ Sea Ray Sundancer 320
- ▶ Sessa key largo 27
- ▶ Bavaria E34 Fly

5. Motor yacht from 41 to 50 feet:

- ▶ **Evo WA**
- ▶ **Beneteau GT50 sportfly**
- ▶ **Sealine C 430**

6. Motor yacht over 51 up to 60 feet:

- ▶ **Riva 56 Rivale new**
- ▶ **Azimut 55 fly**
- ▶ **Absolute 58 fly**
- ▶ Princess S60
- ▶ Bavaria R55
- ▶ Monte Carlo 6S

7. Motor yacht from 61 to 80 feet:

- ▶ **Ferretti 780 new**
- ▶ **Absolute Navetta 73**
- ▶ **Princess S78**
- ▶ Fairline Targa 63 GTO
- ▶ Sunseeker 76 yacht
- ▶ Galeon 640

8. Motor yacht over 81 feet:

- ▶ **Ferretti Yachts 920**
- ▶ **Azimut grande 35 metri**
- ▶ **Pershing 9X new**
- ▶ **San Lorenzo SX 88**
- ▶ Riva 90 project

SAILING YACHTS

1. Cruiser up to 40 feet:

- ▶ **X-Yachts Xc 38**
- ▶ **Najad 395 AC**
- ▶ **Saare 38**

2. Cruiser from 41 to 60 feet:

- ▶ **Beneteau Oceanis 51.1**
- ▶ **Hallberg Rassy 44**
- ▶ **Jeanneau 51**
- ▶ Jeanneau 490
- ▶ Hanse 548
- ▶ Bavaria C45
- ▶ Discovery 58 by Ron Holland
- ▶ Hanse 588
- ▶ Dufour 520

3. Performance up to 40 feet:

- ▶ **Beneteau figaro 3**
- ▶ **Grand soleil 34 Performance**
- ▶ **J/121**
- ▶ Fareast 19R

4. Performance from 41 to 60 feet:

- ▶ **Nautor Club Swan 50**
- ▶ **X-yachts x49**
- ▶ **JPK 45**

5. Sailboat over 60 feet:

- ▶ **OYSTER 118**
- ▶ **Solaris 68**
- ▶ **Bavaria C65**

6. Daysailer:

- ▶ **Seascope 14**
- ▶ **Saffier 37**
- ▶ **RS ZEST**

MULTIHULLS

1. Motor Multihulls

- ▶ **Fountaine pajot MY44**
- ▶ **Nautitech 47**

2. Sailing Multihulls

- ▶ **Fountaine Pajot Saona 47**
- ▶ **Lagoon Seventy 7**
- ▶ **Neel 51**
- ▶ Bali 4.0 lounge
- ▶ Leopard 50
- ▶ Privilege Marine Serie6
- ▶ Dragonfly 28
- ▶ Corsair 760 pocket cruiser

SPECIAL CATEGORIES

+ Adriatic product of the year
motorboat or sailing boat manufactured
in the Adriatic region (Cro, MN, It, Srb, Si)

- ▶ **Seascope 14**
- ▶ **Limo Tender 34 – Argo Navis**

+ Adriatic nautical project of the year
innovations, new technologies, ecology etc.

- ▶ **SEABIN PROJECT**

+ Award in environmental awareness –
to recognize outstanding contributions
made toward the protection,
conservation, and improvement of
Adriatic's natural resources.

- ▶ **PLASTIC OCEAN**
- ▶ **THE OCEAN CLEANUP**

LEXUS RX

DRZEN. PREFINJEN IN LUKSUZEN.

Spoznajte prefinjen športni terenec, ki je ustvarjen za luksuzno življenje.

Spoznajte več na lexus.si

Povprečna poraba goriva za modele RX je 5,3 do 7,9 l/100km in emisije CO₂ 122 do 184 g/km. Emisijska stopnja modela Lexus RX: EURO VI. Emisija NO_x je od 0,0073 do 0,0172 g/km. Oglikov dioksid (CO₂) je najpomembnejši toplogredni plin, ki povzroča globalno segrevanje. Emisije onesnaževal zunanjega zraka iz prometa pomembno prispevajo k poslabšanju kakovosti zunanjega zraka. Prispevajo zlasti k čezmerno povišanim koncentracijam prizemnega ozona, delcev PM₁₀ in PM_{2,5} ter dušikovih oksidov. Slika je simbolična.

EXPERIENCE AMAZING

ABSOLUTE 52 FLY – JADRANSKA PREMIERA

ABSOLUTE 52 FLY – ADRIATIC PREMIERE

Adriatic Wave, uradni zastopnik italijanske ladjedelnice Absolute Yachts bo predstavilo motorno jahto Absolute 52 Fly. Absolute 52 Fly ima tri kabine, dve stranišči in povsem opremljeno kuhinjo – čudovit prostor, v katerem lahko na odprtem morju uživa do osem ljudi.

Adriatic Wave will present the Absolute 52 Fly from famous Italian shipyard, Absolute. Within her 16 meter length, luxury and design merge to create a vessel at one with the ocean.

On the upper deck you'll find a large sofa, table, and with the addition of a couple of chairs, you can comfortably sit up to eight people. The helm is nearby so your group can spend every moment at sea together.

CRANCHI T 36 CROSSOVER – JADRANSKA PREMIERA

CRANCHI T 36 CROSSOVER – ADRIATIC PREMIERE

Živahen in sodobno zasnovan motorni čoln z dvema dizelskima pogonskima agregatoma moči 300 HP in udobnimi 10 m dolžine, kjer ponuja dve bivalni kabini, sanitarije, prostoren dnevni prostor in ergonomsko urejen kokpit. Kot je značilno za italijansko ladjedelnico Cranchi, ga odlikujejo odlične plovne lastnosti in kakovostna izdelava.

A boat with lively performance from twin 300HP diesel engines and a comfortable 10m length that packs in two cabins, toilet, a spacious living area, and sundeck.

GRAND GOLDEN LINE G420 – JADRANSKA PREMIERA

GRAND GOLDEN LINE G420 – ADRIATIC PREMIERE

Veseli nas, da vam lahko predstavimo nov G420, zadnji čoln v seriji Golden Line. Dizajn sledi dobro znani Grand sodobni filozofiji s svetlo, dinamično podobo in aerodinamičnimi linijami.

Kot pri vseh ostalih modelih Golden Line serije, je G420 opremljen z bogatim seznamom standardne opreme in široko izbiro dodatkov, ki vključujejo 55 litrski vgrajen rezervoar goriva in pričajo o posebnosti tega modela.

We are delighted to introduce the new G420, the latest in the Golden Line Series. The design follows the well-established Grand contemporary philosophy with a bright, dynamic appearance and aerodynamic lines. Whilst filling an important niche in the mid-size luxury tender market this model, with its classic layout, performs equally well as a high specification family runabout.

GREENLINE YACHTS 65 OCEANCLASS – JADRANSKA PREMIERA

GREENLINE YACHTS 65 OCEANCLASS – ADRIATIC PREMIERE

Dvajsetmeterska jahta 65 OceanClass s hibridnim motorjem združuje ekološko križarjenje s prostornim razkošjem v plovilu, ki je zasnovano za resno plovbo na odprtem morju.

Powered by a hybrid engine, the 65 OceanClass combines eco-cruising with spacious luxury in a 20 metre craft designed for serious voyages on the open sea.

GREENLINE YACHTS PROTOTIP – SVETOVNA PREMIERA PROTOTIPA

GREENLINE YACHTS PROTOTYPE – WORLD PREMIERE

Greenline Yachts bo na Internautici ekskluzivno predstavila prototip svojega naslednjega plovila, namenjenega novi generaciji pomorcev, ki so pripravljeni na nove užitke na morju. Plovilo bo na voljo z dvema bencinskima ali električnima motorjema.

Exclusively at Internautica, Greenline Yachts will reveal a prototype of their next model – a boat designed for a new generation of sailors ready to enjoy the pleasures of the sea. Available with twin gasoline outboards or twin electric motors, the new model is defined by sleek and elegant lines, fast and efficient hull design, and a smart deck layout ideal for family day trips or comfortable coastal cruising with your loved one.

INVICTUS 240CX – JADRANSKA PREMIERA

INVICTUS 240CX – ADRIATIC PREMIERE

Zapeljiv športni čoln ponuja za svojo dolžino veliko udobja, zunanji motor in edinstvena oblika trupa pa zagotavljata izjemno plovno zmogljivost.

This beautifully finished sport boat offers luxurious comfort, while the outboard motor and unique hull design provide remarkable performance.

L30 CLASS – JADRANSKA PREMIERA

L30 CLASS – ADRIATIC PREMIERE

Jadrnica olimpijskega razreda, ki združuje hitrost, preprostost in udobje v lepi enotni obliki – odlična tako za profesionalce kot za začetnike.

An Olympic class sailboat that combines speed, simplicity, and comfort in one beautiful design – perfect for professionals and beginners alike.

RANIERI NEXT 240SH – JADRANSKA PREMIERA

RANIERI NEXT 240SH – ADRIATIC PREMIERE

Pri Ranieriju so odkrili meter in pol, obdržali enak stil, korporativno identiteto proizvajalca in tako je nastal Next 240 SH. Ustvarjen za en ali dva motorja, Next 240 SH združuje najboljše stilske prednosti in reinterpretira svojo obliko v krajši različici, zaradi česar smo prepričani, da bo čoln izredno dostopen Next model, tudi finančno gledano. Čoln ne bo le cenovno ugoden, pač pa nekoliko manj močnejši motor pomeni tudi manjšo porabo in večje prihranke.

Take one and half meters off, keep the same style, a corporate identity for the manufacturer, and here you have Ranieri International Next 240 SH. Designed for single or twin outboard motor, the Ranieri International Next 240 SH makes the most of the stylistic features in a smaller size which, we are sure, will allow many boaters to approach the Next range with a more affordable budget. Not only for the lower cost of the boat, but also because a less powerful engine means good savings on that front.

RANIERI VOYAGER 23S – JADRANSKA PREMIERA

RANIERI VOYAGER 23S – ADRIATIC PREMIERE

Plovila Ranieri so izdelana iz najboljših materialov, ki so na voljo na trgu. Voyager 23s je specifičen zaradi centralno nameščene konzole, ki zavzame malo prostora, zagotavlja suhost in je dobro zaščitena pred neugodnimi vremenskimi pogoji. Z razvojem nove oblike čolna je bil dosežen znaten napredek pri zmanjševanju odpornosti na spodnjem delu trupa, kar je omogočilo še boljšo plovbo. Z omenjenim izboljšanjem je Ranieri dosegel velik uspeh in potrdil položaj podjetja, kot vodilnega proizvajalca odprtih rekreativnih in športnih čolnov.

Ranieri boats are made of the finest materials available on the market. Voyager 23s is specific due to the centrally positioned console that contains a small space, which is dry and well protected from adverse weather conditions. By developing a new shape of boat, significant advancement has been made in reducing resistance on the lower part of the hull when underway, thus enabling even better performance. With this improvement, Ranieri achieved great success and confirmed the company's position as a leader in the production of open type recreational and sporting boats.

SEA RAY 230 SUNSPORT – JADRANSKA PREMIERA

SEA RAY 230 SUNSPORT – ADRIATIC PREMIERE

Sea Ray 230 Sunsport je novi model luksuzne in priznane ladjedelnice Sea Ray. Novi model je naslednik izjemno popularnega modela Sea Ray 220 Sunsport, kateri je kraljeval v »Cuddy cabin« razredu vrsto let. Plovilo odlikujejo elegantne linije, vrhunske plovne lastnosti ter najvišja raven kvalitete. Prostorna kabina lahko gosti dve odrasli osebi. Kokpit pa nudi ogromno površin tako za druženje kot tudi za sončenje.

With a level of fit and finish that far surpasses the competition, the Sun Sport 230 has an elegant profile that is distinctly Sea Ray. Soft, leather-textured marine-grade vinyl upholstery is UV-protected for lasting beauty and durability. Below deck, the boat's well-appointed cabin welcomes guests with a comfortable dinette/V-berth, making it an ideal place to duck out of the sun, settle the kids down for a nap, or enjoy an overnight getaway.

WINDY 27 SOLANO – JADRANSKA PREMIERA

WINDY 27 SOLANO – ADRIATIC PREMIERE

Podjetje Adria Luxury Yachts bo na letošnji Internautici predstavilo kar 3 jadranske premiere norveških plovil Windy. Eno izmed njih je športni čoln 27 Solano, ki je s svojim klasičnim slogom, neprekosljivo zmogljivostjo in možnostjo za odlično upravljanje pripravljen, da bo požel uspeh legendarnega modela Zonda.

Adria Luxury Yachts will showcase three Adriatic premiers from Noewegian shipyard Windy. One of the premieres is Windy 27 Solano. With the classic styling, unbeatable performance, and superb handling, the new 27 Solano sports boat is set to emulate the success of the legendary Zonda.

WINDY 31 ZONDA – JADRANSKA PREMIERA

WINDY 31 ZONDA – ADRIATIC PREMIERE

Nagrajeni športni čoln 31 Zonda je osupljivo hiter vikendaš, ki združuje dirkaški videz in nudi enostavno upravljanje, udobje plovbe pa je primerljivo večjim plovilom.

The award-winning 31 Zonda is a stunningly fast weekender combining the racy looks and exhilarating handling of a sport boat with the comforts of a larger cruiser.

WINDY 39 CAMIRA – JADRANSKA PREMIERA

WINDY 39 CAMIRA – ADRIATIC PREMIERE

Nagrajena 39 Camira je klasičen športni motorni čoln z odličnimi zmogljivostmi za priobalno plovbo in največjo hitrostjo 45 vozlov.

The award-winning 39 Camira is a classic sport cruiser with a serious offshore pedigree, and a top speed of 45 knots.

SVET KAPITALA

NA INTERNAUTICI,
NAJVEČJEM JADRANSKEM MEDNARODNEM SEJMU NAVTIKE, KI BO
OD 17. DO 20. MAJA V MARINI PORTOROŽ,
BO TUDI SVET KAPITALA.

NE ZAMUDITE OKROGLE MIZE V SOBOTO, 19. MAJA Z NASLOVOM:

»KAM IN KAKO
PLUJE SLOVENIJA?«

► VARUJ MORJE PLASTIČNI ODPADKI V MORJU

ODPADKI IZ PLASTIČNIH MATERIALOV VSE BOLJ OGROŽAJO SVETOVNA MORJA

Prisotnost odpadkov iz plastičnih materialov v svetovnih morjih je kot velika grožnja le tem prepoznana že kar nekaj zadnjih let. V preteklosti so se zato nedvomno okrepila prizadevanja družbe za zmanjšanje in ustavitve onesnaževanja morij s plastiko. Zdi pa se, da obstoječa prizadevanja za zmanjšanje in ustavitve onesnaževanja morij s plastiko niso dovolj, saj vsako leto v morju konča med 4 in 12 milijonov ton plastičnih odpadkov. Prav tako trendi bodočega razvoja družbe, kljub začetnim prizadevanjem za zmanjšanje onesnaževanja morij s plastiko, kažejo na to, da se bo količina odpadkov v morjih v naslednjih 10 letih podvojila.

Med 60 in 90 % vseh odpadkov v morju je iz plastičnih materialov

Ena največjih globalnih groženj morskemu okolju je onesnaževanje s plastiko, saj odpadki iz plastičnih materialov v svetovnih morjih predstavljajo med 60% in 90% vseh odpadkov v morju in na obali. Na slovenski obali je na primer v povprečju 74% števila kosov vseh zbranih odpadkov iz plastičnega materiala. Še večji delež po številu vseh odpadkov pa v slovenskem morju predstavljajo plavajoči plastični materiali, in sicer kar 90%.

Odpadki iz plastičnih odpadkov v morjih so zaradi njihove dolgoživosti in brezmejnosti morij globalna grožnja, ne le lokalna, tudi slovenskemu morju.

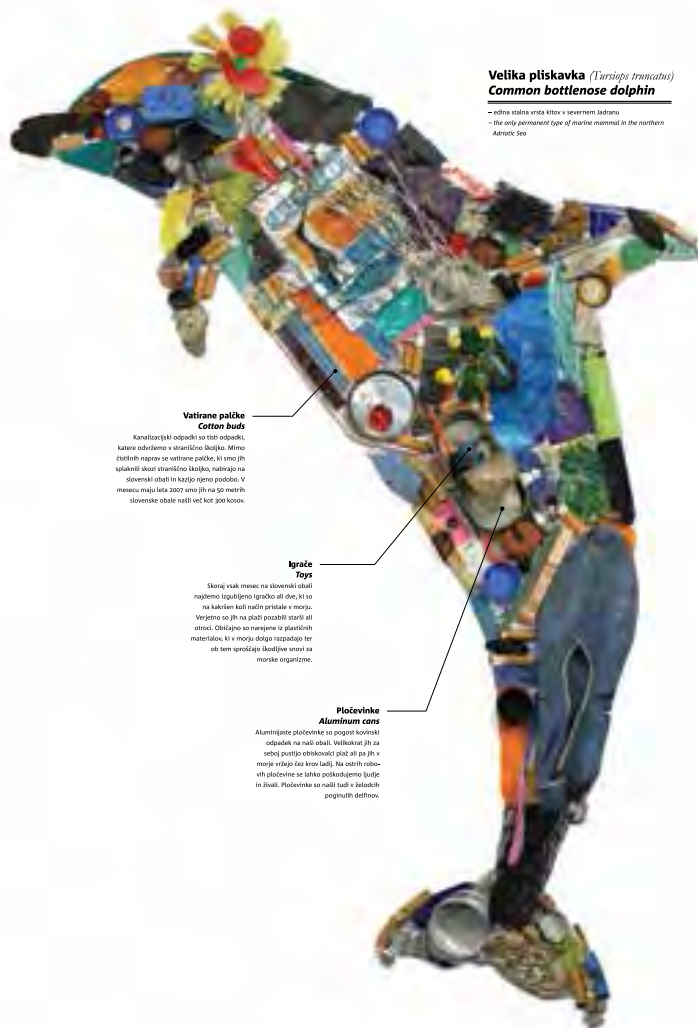

Eden od ključnih razlogov, zakaj je onesnaževanje morij s plastičnimi materiali tako velika grožnja morjem je, da imajo plastični materiali izredno dolgo življenjsko dobo. Plastični material je namreč umeten material, ki ga naravni sistemi zelo težko razgradijo, zato njihova razgradnja lahko traja desetletja in več. Posledično pa se odpadki kopičijo v morskem okolju in na obali. Prav zaradi obstojnosti in kopičenja odpadkov ti lahko, preko različnih tokov morij tako v globljih delih morij, kot na njihovi gladini, kjer ima na gibanje morja pomemben vpliv tudi veter, prepotujejo velike razdalje in onesnažujejo ne le območje vira vnosa odpadkov (onesnaževalci), pač pa tudi oddaljena območja, ki niso neposredno obremenjena z viri vnosa odpadkov (onesnaževalci).

In prav za slovensko morje je značilno, da je izrazito podvrženo onesnaževanju z odpadki zaradi značilnih tokovanj morja, ki v ustreznih pogojih, tudi vetrovnih, v naše morje in na obalo, predvsem z južne in vzhodne strani Jadranskega morja zanese večje količine odpadkov.

Odpadki iz plastičnih materialov v morjih škodujejo tudi zdravju človeka, ne le morskim organizmom

V zadnjem času je vse več razumevanja, da plastični odpadki ne predstavljajo grožnje le morskim organizmom, temveč tudi človeku. Poleg odpadkov večjih dimenzij, ki vse pogostje povzročijo pogin morskih živali, ki se v te odpadke zapletejo ali jih zamenjajo za vir hrane, predstavljajo odpadki manjših dimenzij vse večjo nevarnost tudi za zdravje ljudi. Odpadki se v morju se zaradi počasne razgradnje zadržujejo desetletja in v tem času razpadejo v manjše delce, mikroplastiko, ki jo morski organizmi pojedjo. Preko teh organizmov in preko prehrane mikroplastika prehaja v človeško telo. Drugi pomemben in škodljiv element so razgradni produkti plastike, ki so v veliki meri hormonski motilci, in strupene snovi, ki se prenašajo z odpadki, in so prav tako škodljivi tudi za človeka.

Učinkovito preprečevanje onesnaženja morja z odpadki iz plastičnih materialov zahteva ukrepanje celotne družbe. Vsak prispevek, še tako majhen, šteje.

Onesnaženje morij z odpadki je globalnega značaja, zato je vsekakor potrebno okrepiti prizadevanja za zmanjševanje vnosa odpadkov v morja na globalni ravni, tako v odnosu družbe kot tudi posameznika do odpadkov. Ker pa se vsak uspeh začne z majhnimi koraki predno preraste v globalno uspešno zgodbo, vas vljudno vabimo, da kot posameznik aktivno prispevate k ohranitvi morij in si morda za začetek izberete eno ali več v nadaljevanju predlaganih aktivnosti:

1. Zmanjšajte uporabo plastičnih izdelkov za enkratno uporabo

Kjerkoli živite, je najlažji in najbolj neposreden način, s katerim lahko začnete, zmanjšanje lastne uporabe plastike, ki je namenjena za enkratno uporabo. To so plastične vrečke, steklenice za vodo, slamice, skodelice, pripomočke, vrečke za kemično čiščenje, posodice za odstranjevanje in vsi drugi plastični predmeti, ki se po uporabi zavrežejo. Najboljši način za to je:

- a) zavrnitev plastičnega izdelka za enkratno uporabo, ki ga ne potrebujete (npr. slamice, plastične vrečke, posodice za shranjevanje živil) in
- b) nakup in ponovna uporaba izdelkov za večkratno uporabo, kot na primer vrečke iz blaga, steklenice, stekleni kozarci,...

2. Reciklirajte

Vedno, ko/če uporabljate plastične izdelke za enkratno uporabo preverite ali se jih da reciklirati in jih nato tudi vedno reciklirajte. To prispeva k zmanjšanju vnosa plastičnih materialov v morja.

3. Izogibajte se izdelkom, ki vsebujejo mikroplastiko

Drobni plastični delci, imenovani "mikroplastika", so v zadnjih letih postali naraščajoči vir onesnaževanja morij s plastiko. Mikroplastika ni le razgradni produkt večjih plastičnih kosov, pač pa se nahaja v številnih izdelkih, med katerimi so različni pilingi, zobne paste in kreme. Pri nakupu izdelkov se odločite za tiste, ki mikroplastike ne vsebujejo. Na trgu se že pojavljajo izdelki, ki mikroplastike ne vsebujejo in je na embalaži to jasno označeno.

4. Ozaveščajte druge s svojim zgledom.

5. Sodelujte v čistilnih akcijah na obali, in aktivno sodelujte v akcijah/kampanjah na temo reševanja problematike onesnaženja morij z odpadki iz plastike

Pomagajte odstranjevati odpadke iz morja in z obale. Preprosto pojdite na plažo/obalo ali na morje in zbirajte plastične odpadke sami ali s prijatelji ali družino, in prijetno združite s koristnim. Lahko se pridružite čiščenju morja in obale v kakršnikoli uradno organizirani obliki ali akciji.

Pridružite se aktivnostim, ki jih izvajajo različne institucije z namenom ozaveščanja in aktivnega preprečevanja onesnaževanja morja in obale z odpadki iz plastičnih materialov.

6. Pridruži se kampanji POSVOJI SVOJ KOŠČEK OBALE

Ob tej priložnosti vas vabimo, da se priključite kampanji POSVOJI SVOJ KOŠČEK OBALE, ki se začne pod okriljem letošnjega Mednarodnega navtičnega sejma INTERNAUTICA 2018 v sodelovanju z lanskoletnim dobitnikom nagrade za okoljevarstveni projekt na Internautici, projektom VARUJ MORJE BODI ZVEZDA, ki je nastal v sodelovanju z Ministrstvom za infrastrukturo – Upravo RS za pomorstvo, Ministrstvom za okolje in prostor, Agencijo RS za okolje, Direkcijo RS za vode, Zavodom RS za naravo, KP Strunjan, Društvom DOVES, Društvom Morigenos, Inštitutom za vode RS, Nacionalnim inštitutom za biologijo – Morsko biološko postajo Piran. Cilj kampanje je, da vsak posameznik ali skupina posvoji košček slovenske obale ali več njih, in za posvojeno obalo poskrbi na način, da s svojimi aktivnostmi (čiščenje, čistilne akcije) zagotavlja čisto obalo.

Več informacij o kampanji: gp.mop@gov.si (pripis Kampanja Posvoji svoj košček obale).

PROTECT THE SEA, #RethinkPlastic

PLASTIC WASTE IS A GROWING THREAT TO THE WORLD'S OCEANS

The presence of plastic waste in the world's oceans has been recognized as a major threat for a number of years now. Even though our society has undoubtedly been trying to reduce and stop the pollution of oceans with plastic waste, it seems that these efforts have not been sufficient, since between 4 and 12 million tons of plastic waste ends up in the oceans every year. Moreover, future development trends indicate that the amount of waste in our oceans will double in the next 10 years in spite of all the efforts to reduce plastic waste.

Plastic materials account for anywhere between 60 and 90% of all waste in our oceans

Plastic waste is one of the biggest global threats to marine environments. Plastic waste accounts for 60% to 90% of all waste in our oceans. This percentage is also representative for the Slovenian coast since plastic materials account for 74% of all collected waste as well as more than 90% of all floating waste.

Plastic waste in the oceans is not only a problem in the Slovenian sea, it is a global threat because of the longevity of plastic materials and the connected nature of the world's seas.

One of the key reasons that the pollution of oceans with plastic materials is a global threat is that plastic materials have an extremely long lifetime. Plastic is an artificial material which does not decompose

easily in natural systems, and its decomposition can last decades or more. As a result, plastic waste accumulates in the marine environment and on the coast. Moreover, long-lasting plastic waste moves along sea currents and ocean streams, which means it can cover long distances in the oceans and pollute areas which are not directly threatened by this waste.

The above-mentioned phenomenon is very significant for the Slovenian part of the Adriatic, because of the Adriatic sea currents and atmospheric conditions (winds). Most waste in the Slovenian part of the Adriatic sea comes from the southern and eastern parts of the Adriatic.

The plastic waste in our oceans is not only harmful for marine environments, but also human health

People have recently become increasingly aware that plastic waste might also have severe negative effects on human health aside from the well-known negative effects on the marine environment. Macroplastics pollution is a big threat to marine animals (deaths, injuries), but microplastics pollution seems to be a big problem for human health. Microplastic materials/particles are consumed by sea creatures which are in turn consumed by humans, transferring the microplastic particles into our bodies. Degradation products, which are largely hormonal disruptors, are another important and harmful element of plastic pollution together with all the other toxic materials in such waste.

Effective prevention plastic waste pollution requires action on the part of the whole society as well as every individual. Every contribution counts, no matter the scale.

Plastic waste pollution of the oceans is a global threat. This is why it is necessary to step up our efforts to reduce the global input of waste into the oceans. Since every success story starts with small steps before it turns into a global success, we kindly invite you to actively contribute to marine conservation as individuals. You can start with any or all of the following activities:

1. Reduce your use of disposable plastic products

This is the easiest and most direct route to start, no matter where you live. Simply reduce your own use of disposable plastic products, which includes plastic bags, water bottles, straws, cups, utensils, dry cleaning bags, disposable containers and any other plastic items that are discarded after use. The best way to do this is by:

- Refusing plastic non-reusable products (such as straws, plastic bags, meal container);
- Purchasing and using reusable products, such as cloth bags, glass bottles, and glass jars...

2. Recycle

When/if you are using plastic disposable products, always check for recyclability, and always recycle them if possible. This way you can reduce the inflow of plastic materials into the sea.

3. Avoid products that contain microplastics

In recent years, tiny plastic particles, called "microplastics", have become an increasing source of plastic pollution in the oceans. Microplastics are not only a breakdown product of larger plastic pieces, but are also found in many products, such as various skin peeling products, toothpaste and creams. Chose to buy products that do not contain microplastics. Products that do not contain microplastics are already available in some markets.

4. Set an example for others.

5. Join cleanup campaigns on the coast, and actively promote any activities that focus on solving the problem of plastic pollution in our seas

- Help clean up waste from the sea and the coast. Just go to the beach/coast or head out to the sea and collect plastic waste yourself or with your friends or family. You can also join organized cleanup campaigns.
- Join campaigns and other activities carried out by various institutions in order to raise awareness and actively prevent the pollution of the seas with plastic waste.

6. Join the ADOPT A PIECE OF THE SLOVENIAN COAST campaign

On this occasion, we would like to invite you to join the "ADOPT A PIECE OF THE SLOVENIAN COAST" campaign, which launches this year supported by the International boat show Internautica 2018 and realized in cooperation with last year's winner of the first prize for an environmental project at Internautica, "Protect the Sea, Be a Star". The following agencies are also cooperating in the campaign: Ministry of Infrastructure (Slovenian Maritime Administration), Ministry of the Environment and Spatial Planning (Slovenian Environment Agency, Slovenian Water Agency), Institute of the Republic of Slovenia for Nature Conservation, KP Strunjan, DOVES Society, Morigenos Society, Institute for Water of the Republic of Slovenia, National Institute of Biology - Marine Biology Station Piran. The "ADOPT A PIECE OF THE SLOVENIAN COAST" campaign encourages every individual or group to adopt just one or several small pieces of the Slovenian coast. Adoption means that this individual or group will organize and perform activities which will help keep their piece of the Slovenian coast clean.

More information about the campaign is available at gp.mop@gov.si ("Adopt a piece of the Slovenian coast" campaign).

Razmišljate o predstavitvi svojega podjetja na uveljavljenem sejmu doma ali v tujini?
Morda pa o pripravi kakšnega drugega dogodka, kongresa, prireditve?
Tehtate, kako izbrati pravega izvajalca želene storitve?

Nudimo široko paleto talnih oblog za organizatorje in izvajalce prireditev.

Talna obloga z zaščitno foljo,
ognjevarno certificirano,
potiskane talne obloge (*kamen ...*),
talna obloga z bleščicami,
PVC talna obloga (*imitacija Alu pločevine*),
umetna trava,
investicijski program (*Hoteli...*).

Podjetje Interexpo je pravi odgovor na zastavljene dileme.

V svojem 20-letnem delovanju se je uveljavilo, kot eden izmed vodilnih oblikovalcev in postavljalcev razstavnih prostorov in različnih drugih dogodkov (kongresi, poslovna srečanja, event, ...).

S pestro celostno ponudbo storitev (postavitve, najem, transport, špeditorske storitve, skladiščenje, uporaba najnovejših računalniških tehnologij pri 3D projektiranju) in lastnim sejamskim materialom, se odlikujemo po prilagodljivosti in hitri odzivnosti. Naša ekipa se sestoji iz preskušanih tehnikov, arhitektov in monterjev, ki posedujejo potrebna znanja za načrtovanje in opremljanje sejamskih in kongresnih prostorov od oblikovanja celostne podobe (strukture, pohištvo...), do računalniške grafike.

Družba se je skozi dve desetletji razvoja uveljavila, kot globalni ponudnik tekstilnih talnih oblog za sejme, prireditve in kongrese, kjer s svojimi kreatorji skrbi za uvajanje aktualnih svetovnih modnih in ekoloških trendov.

Vabimo Vas, da nas obiščete na naši spletni strani www.interexpo.si ali pa nam pišete na naslov postaj@interexpo.si, z veseljem vam bomo odgovorili in svetovali pri vseh vaših vprašanjih ter vam ponudili strokovno rešitev, ki vam jo bomo tudi izrisali.

INTER EXPO d.o.o.

Internautica SUP CHALLENGE 2018

NAZIV ORGANIZATORJA:

Internautica, mednarodna razstava navtike

IME PRIREDITVE:

Internautica SUP Challenge 2018

KRAJ TEKMOVANJA:

Marina Portorož

DATUM:

19.5.2018

**STATUS TEKMOVANJA,
OPREMA:**

Internautica SUP Challenge šteje za SUP pokal Slovenije. Tekmuje so po pravilih SUP pokala Slovenije. V kategoriji RACE in MLADINCI se tekmuje na deskah dolžine največ 14,0" (427 cm). V kategoriji FUN se tekmuje na vseh napihljivih deskah dolžine največ 14,0" (427 cm) in na trdih deskah krajših od 12,5" (378 cm). V kategoriji OTROCI se tekmuje na deskah dolžine največ 12,6" (381 cm). Uporaba varnostne vrvice (leasha) je obvezna.

PRIJAVNI ROK IN ŠTARTNINA:

Predprijave do 16.5.2018 na www.internautica.net, startnina 20€ na dan tekmovanja, startnina 25€. V startnino so vključeni brezplačna vstopnica za ogled sejma Internautica ter malica in pijača.

RAZPISANE KATEGORIJE:

- RACE, enotna moška in enotna ženska kategorija, 8 km,
 - FUN, enotna moška in enotna ženska kategorija, 4 km,
 - MLADINCI, enotna moška in enotna ženska kategorija do 18 let (2000 in mlajši), 4 km,
 - OTROCI, enotna moška in enotna ženska kategorija do 12 let (2006 in mlajši), 1200 m.
- V posamezni kategoriji mora biti prijavljenih vsaj pet tekmovalcev, sicer se kategorije združujejo.

ODLIČJA IN NAGRADE:

V vseh razpisanih kategorijah bodo podeljena odličja za prva tri mesta.

VODJA TEKMOVANJA:

Rok Vettorazzi, rok.vettorazzi@gmail.com

PARKIRANJE:

Parkiranje je zagotovljeno v okviru parkirišča za obiskovalce sejma Internautica in je za tekmovalce brezplačno.

PROGRAM TEKMOVANJA:

9.00 – prijava in prevzem startnih števil
11.00 – zbor tekmovalcev
11.30 – start
12.15 – 13.00 – prihod tekmovalcev na cilj
14.00 – razglasitev rezultatov

TEKMOVALNO POLJE:

Start tekmovanja bo v Marini Portorož. Proga bo vodila ob glavni portoroški plaži do hotelskega kompleksa Bernardin, tam sledi obrat in veslanje nazaj proti marini, kjer bo za tekmovalce v kategorijah FUN in MLADINCI tudi cilj. Tekmovalci v kategoriji RACE bodo naredili še en krog in prav tako končali tekmovanje v marini. OTROCI prav tako začnejo tekmovanje v marini, veslajo do prve boje ob glavni portoroški plaži, naredijo obrat in se vrnejo na cilj v marino.

Naučite se veslanja na deski od najboljših. SupKlub je ASI akreditirana šola supanja, s prekrasno lokacijo v prestolnici. Ne glede na to, kakšne so vaše SUP želje, SupKlub poskrbi za vse. Od enourne lekcije do napredovanja na višje ravni, rekreacije ali treningov, kot tudi izposoja opreme; zagotavljamo osebni in prijazen pristop, tako da lahko vsak uživa v svojem tempu in ter spozna nove prijatelje.

Internautica SUP CHALLENGE 2018

ORGANISER:	Internautica, International Boat Show
NAME OF EVENT:	Internautica SUP Challenge 2018
COMPETITION VENUE:	Marina Portorož
DATE:	19 May 2018
STATUS OF THE COMPETITION, EQUIPMENT:	Stand-Up Paddling challenge returns for beginners and experienced paddlers alike. The Internautica SUP Challenge qualifies participants for the SUP Cup of Slovenia, so the rules of the Slovenian SUP Cup apply for the competition. Hard and inflatable boards are used. The maximum length of boards in the RACE and OLDER JUNIORS category is 14.0" (427 cm), the minimum length in the FUN category is 12.6" (381 cm). The maximum length of boards in the JUNIORS category is 12.5" (381 cm). The use of a safety strap (leash) is mandatory.
APPLICATION DEADLINES AND ENTRY FEE:	Pre-registrations are possible until 16 May 2018 using the entry form below. The entry fee for pre-registrations is €20, and €25 on the day of the competition. The entry fee includes a free ticket to visit the Internautica Boat Show, along with a drink and snack.
CATEGORIES:	• RACE, Men's and Women's Singles, 8 km • FUN, Men's and Women's Singles, 4 km • OLDER JUNIORS up to 18 years 4 km • JUNIORS up to 12 years 1200 m. In each category there must be at least five contestants registered, otherwise the categories can not be combined.
MEDALS AND AWARDS:	The first three places will be awarded with medals in all categories. All competitors will also be included in a prize draw.
COMPETITION MANAGER:	Rok Vettorazzi , rok.vettorazzi@gmail.com
PARKING:	The car park intended for the Internautica Boat Show visitors is open to competitors free of charge.
COMPETITION PROGRAMME:	9.00 – Registration and submission of competition numbers 11.00 – Riders' meeting 11.30 – Start 12.15 – 13.00 – Arrival of the riders at the finish 14.00 – Official announcement of the results and award ceremony
COMPETITION AREA:	The competition will start in Marina Portorož. The route runs along the main Portorož beach to the Bernardin Hotel; the route turns and competitors paddle back to the Marina with the finish line for the FUN and OLDER JUNIORS category competitors. The competitors in the RACE category make another turn and end the competition in Marina Portorož. The competitors in the JUNIORS category will also start in Marina Portorož. The route runs along the main Portorož beach, where a clockwise turn around buoy 1 follows, and then competitors paddle back to Marina Portorož.

Learn how to stand up paddle and have SUP lessons at SupKlub, an ASI accredited school, located at Ljubljana, the capital of Slovenia.

No matter what your interests in SUP are, from one lesson to progressing up to higher levels, recreational paddling or training, rent the equipment; we offer a personalised and friendly service so can learn at your own pace and have fun and meet new friends.

Zelena Avenija 2018

Triindvajseta INTERNAUTICA bo ponovno vsebinsko naravnana k predstavitvi inovativnih tehnologij prihodnosti, ki dvigujejo posameznikovo ekološko ozaveščenost in ga spodbujajo k uporabi energije iz obnovljivih virov ali hibridnih sistemov z zmanjšano porabo goriva in emisij.

Projekt Zelena Avenija 2018 se tradicionalno osredotoča na trajnostno življenje in ekološko ozaveščenost. Ogledati in preizkusiti bo mogoče različna električna in hibridna vozila, pa tudi avtomobile, motocikle in kolesa brez emisij.

V preteklosti so bile na Zeleni Aveniji razstavljene nekatere izmed največjih blagovnih znamk trajnostne mobilnosti, med drugim letalo Pipistrel, ki je prejelo nagrado, ki jo podeljuje NASA, BMW i3, Tesla model S in 3, Opel Ampera, E-Smart Roadster, E-Smart in Nissan Leaf, Hyundai Ioniq, hibridna plovila Greenline in druge inovacije tega vznemirljivega področja.

Obdobje, ki je pred nami, bo zaznamovala preudarna in učinkovita uporaba energije, preusmeritev na zelene energije in razvoj s tem povezanih tehnologij. Na področju zelene mobilnosti smo Slovenci dosegli več kot marsikdo: na cesti, v zraku in na vodi. Ustvarili smo temelje in možnosti za pomemben del slovenske gospodarske prihodnosti in identitete.

Green Avenue 2018

23rd INTERNAUTICA will be focusing again on the presentation of innovative future technologies increasing individual's ecological awareness promoting the use of energy from renewable sources, or hybrid systems with reduced fuel consumption and emissions.

The Green Avenue Project 2018 is again focusing on sustainable living and ecological awareness. There will be a range of electric and hybrid vessels to explore, as well as low and zero emission cars, motorbikes, and bicycles.

Over the years, we've exhibited some of the biggest brands and models in sustainable transport, including the Pipistrel NASA-award winning aircraft, BMW i3, Tesla Model 3, Opel Ampera, E-Smart Roadster, E-Smart, and the Nissan Leaf. We've also showcased hybrid vessels from Greenline, as well as some electric-only craft.

This year, we're expanding the program to other products and services that are not directly related to transport. Everything ecologically-oriented, innovative, and environmentally-friendly will be shown in the Green Avenue area, and arranged to complement each other.

As we move into 2018 and beyond, it's important that we shift towards a low-carbon economy. Climate change already threatens our oceans and the livelihoods that depend on them, but with the right action, we can prevent further

damage. Slovenia has long supported green initiatives – on the road, sea, and water – which have helped reduce emissions, accelerate economic progress, and establish Slovenia as a world-leader in sustainability. As such, Internautica is the premier boat show in which to promote ecological awareness, marine conservation, and responsible boatmanship.

Društvo za okoljsko vzgojo v Sloveniji, DOVES - FEE Slovenia:

V letošnjem letu začela plapolati zastava programa Zeleni ključ, saj je podeljen prvi slovenski Zeleni ključ, eko-znak največjega mednarodnega programa za označevanje hotelov in hostlov, manjših nastanitvenih obratov, kampov in počitniških parkov, kongresnih centrov, restavracij in turističnih atrakcij, restavracij in atrakcij.

Društvo DOVES – FEE SLOVENIA (DOVES) je prostovoljna, samostojna, neprofitna in nevladna organizacija, ki v Sloveniji izvaja prepoznane mednarodne okoljske programe za spodbujanje okoljske vzgoje in trajnostnega razvoja. Kot polnopravni član Mednarodne fundacije za okoljsko vzgojo FEE (Foundation for Environmental Education) s sedežem na Danskem, je edina organizacija v Sloveniji z ekskluzivno pravico za izvajanje programov fundacije FEE v Sloveniji. S tem povezuje Slovenijo v strateško mednarodno zvezo 76 držav.

V Sloveniji izvajamo programe Modra zastava, Ekošola, Mladi poročevalci za okolje in LEAF ter Zeleni ključ za turistične namestitve. »Udarne« programa Modra Zastava in Ekošola sta neprecenljive vrednosti.

Kot se vsi zavedamo so podnebne spremembe nov izziv, ki prinaša globalnemu turizmu več tveganja kot priložnosti ter napoveduje regijsko, sezonsko in produktno prerazporeditev turističnih tokov. Vedenje potrošnikov se hitro spreminja, turisti vedno pogosteje iščejo zelene, odgovorne destinacije. Modra zastava in Zeleni ključ sta promocijski orodji s katerimima lahko vplivamo na tovrstne odločitve potrošnikov

MODRA ZASTAVA KOT EKO-INDIKATOR TURISTIČNE DESTINACIJE

V letu 2018 podeljenih 15. Modrih zastav.

Programa MODRA ZASTAVA nudi slovenskih občinam in turističnemu gospodarstvu priložnost za promocijo turistične destinacije in lahko služi **kot indikator (eko)kakovosti turistične destinacije**. Sam program Modra zastava v Sloveniji že vrsto let podpira tudi Slovenska turistična organizacija.

Pričakovane učinke izvajanja programa Modra zastava lahko strnemo v naslednje alineje:

- uvajanje/širitev ekološkega managementa, ekoloških standardov v slovenski turizem,
- uvajanje in promocija ekološke blagovne znamke Modra zastava v slovenskem turizmu,
- sodelovanje v evropski (svetovni) družini ekološko odgovornih turističnih upraviteljev,
- informiranje javnosti o stanju okolja (čistost voda, plaž, varovanih območij, ipd.),
- sodelovanje turistične in lokalne skupnosti, sodelovanje upravljalcev plaž, hotelov in marin.

V letošnjem letu je v Sloveniji potekal že 24. razpis za Modro zastavo, mednarodno priznani okoljski znak za trajnostno upravljanje kopališč in marin, namenjen povečevanju okoljske ozaveščenosti na kopališčih, (so)oblikovanju okoljske etike ter spodbujanju okoljsko odgovornega obnašanja. Modro zastavo pa lahko pridobijo marine in kopališča, ki zadostijo zahtevnim kriterijem in le-te tudi v praksi udeležijo skozi okoljski menedžment. Kriteriji programa Modra zastava so razvrščeni v štiri (4) kategorije:

- Kvaliteta kopalne vode,
- Okoljska vzgoja in informiranje,
- Okoljsko upravljanje in
- Varnost ter storitve.

Modro zastavo, kot znak okoljske kakovosti in varnosti, marine in kopališča prejmejo **za obdobje enega leta**, zato se morajo vsako leto znova potruditi, da zadostijo vsem zahtevanim kriterijem in v času, ko v marinah in na kopališčih plapolja Modra zastava, to kakovost tudi nadzirajo in zagotavljajo raven storitev za katere so se zavezali v razpisu. Izvajanje pravil in zahtev preverjajo poleg potrošnikov/uporabnikov tudi nadzorniki DOVES-a in FEE-ja ter upravjalce in javnost opozarjajo na morebitne pomanjkljivosti, ki jih je potrebno v najkrajšem možnem času odpraviti, sicer lahko Modro zastavo – znamenje kakovosti – izgubijo.

Mednarodna komisija programa Modra zastava je na podlagi predloga Nacionalne komisije za Modro zastavo Sloveniji za leto 2018 potrdila **15 modrih zastav**. V svetu je v **45 državah** vsako leto podeljenih preko **4.423 Modrih zastav** in število se iz leta v leto povečuje, saj za upravljavce kopališč in marin ter pristojne občine

Modra zastava pomeni dodano vrednost in kazalnik učinkovitosti turistične ponudbe ter »zelenega turizma«. Modro zastavo pridobijo marine in naravna kopališča, ki zadostijo zahtevnim kriterijem in le-te tudi v praksi udeležijo.

SLOVENSKI DOBITNIKI MODRIH ZASTAV ZA LETO 2018

12 naravnih kopališč: Meduza Portorož, Centralna plaža Portorož-Okolje Piran, Grajsko kopališče Bled, Naravno kopališče Grand hotela Bernardin, Krka Strunjan, Kopališče Salinera Strunjan, Plaža Simonov zaliv, Debeli rtič, Šobčev bajer, Naravno kopališče Vile Park Bernardin, Mestno Kopališče v Kopru in 3 marine: Marina Portorož, Marina Izola, Marina Bernardin.

DOVES - FEE Slovenia:

The first Slovenian "Green key" accommodation facility awarded this year. Green key is the largest international eco-label for accommodations, restaurants and attractions.

"DOVES – FEE Slovenia" is a voluntary, independent, non-profit and non-governmental organization (NGO) conducting internationally recognized environmental programs for encouragement of environmental education and sustainable development in Slovenia. As a full member of the Foundation for Environmental Education (FEE), it is the only Slovenian organization with exclusive rights to conduct FEE programs in Slovenia and includes Slovenia in a strategic international network of 76 countries.

In Slovenia, we conduct all FEE programs: Blue Flag, Eco-Schools, Young Reporters for the Environment, LEAF and the Green Key.

The most valuable programs at the moment are Blue Flag and Eco-schools. Eco-school program for pre-school children, pupils and students approaching the organic content and behavior. We estimate that since its startup in 1996 participated in the program 19 Slovene generations and more than half a million young Slovenians.

"Both programs are involved with the local community and are focused on the environment and environmental issues, both locally as well as nationally. With the creation of environmental awareness and ecological responsibility are also improving our environmental behavior and the future of our planet Earth, and thus the quality of life for present and future generations."

Fiorenzo Lupieri, President of DOVES-FEE SLOVENIA

DOVES FEE SLOVENIA

BLUE FLAG AS A KEY PERFORMANCE INDICATOR FOR THE ECO DESTINATION

15 operators awarded with Blue Flags in 2018.

"As we all know climate change is a new challenge that brings global tourism more risks than opportunities, predicts regional, seasonal and product redistribution of tourist flows. Consumer behavior is changing rapidly; tourists are increasingly looking for green, responsible place. The Blue Flag and Green Key are promotional tools by which we can influence these consumer's decisions."

Boris Šušmak, M.Sc., Blue Flag program's National Coordinator
Blue flag program offers Slovenian municipalities and to the tourist industry the opportunity to promote a tourist destination and can serve as an indicator of tourist destination's quality. The Slovenian Blue flag Program is also supported by the Slovenian Tourist Board for many years.

The expected effects of the implementation of the Blue flag program can be summarized in the following indent:

- Introduction / expansion of ecological management, ecological standards in Slovenian tourism,
- Introduction and promotion of eco-label Blue Flag in Slovenian tourism,
- Cooperation within the world's Blue Flag family of ecologically responsible tourism managers,
- Informing the public about the state of the environment (clean water, beaches, protected areas, etc.)
- Cooperation of all stakeholders: tourists, local community, beach operators, hotels and marinas.

Blue flag criteria are grouped into four (4) categories:

- The quality of bathing water
- Environmental Education and Information,
- Environmental management and
- Safety and Services.

This eco label can award marinas and beaches for a period of one year/bathing season. Therefore, every year they must do some effort to meet all the required criteria and pass the

assessment. When the marinas and beaches are fluttering the Blue flag, this means also that a quality control have been done and provide a level of service to which they have committed in the call.

The International National Jury of the Blue flag decision is based on the proposal of the Slovenian National Jury and for the year 2018 confirmed 15 Blue flags. There is **45 countries** and over **4,423 Blue flags** in the World taking part of the Blue flag program and the number increases from year to year due to the fact that the Blue flag program represents the added value for beaches, marinas and municipalities and also serves as an indicator of the efficiency of tourist services and "green tourism"/eco-destination.

2018 BLUE FLAG AWARDED OPERATORS IN SLOVENIA

12 beaches: Medusa Portorož, Central beach Portorož, Grajsko kopališče Bled, Saint Bernardin, Krka Strunjan, Salinera Strunjan, Simonov zaliv, Debeli Rtič, Šobec, Ville Park Bernardin, Municipality beach Koper and

3 marinas: Marina Portorož, Marina v Izoli and Marina Bernardin.

Ko tradicija zaživi v sedanosti

Jubilejna, že 40. tradicionalna majska regata starih bark, ki jo tudi tokrat v sodelovanju z INTERNAUTICO organizira Društvo ljubiteljev starih bark Piran (DLSB), bo po pričakovanjih ponovno privabila v Piranski zaliv od 45 do 50 klasičnih lepotic iz Italije, Hrvaške, Avstrije in Slovenije. Pričakovana je udeležba več manjših plovil, posebej s Hrvaške, ki doživlja pravo renesanso pri obnovi klasičnih plovil in gradnji novih replik v lesu. Več t. i. malih bark je logična posledica učinkov delovanja čezmejnega projekta Interreg Slovenija - Hrvaška z akronimom Mala barka 2, ki strokovno in finančno vzpodbuja ohranjanje in revitalizacijo pomorske kulturne dediščine severnega Jadrana.

Na slovenski strani je pomemben člen omenjenega čezmejnega projekta tudi Društvo ljubiteljev starih bark Piran, katerega predsednik sem hkrati tudi član štirinajst članskega Centra odličnosti, ustanovljenega pri občini Piran, ki nadzoruje in usmerja slovensko stran tega večletnega projekta. S svojim delovanjem DSLB - stanovsko piransko društvo s tradicionalno regato na najboljši mogoč način podpira to čezmejno sodelovanje.

Tudi tokrat bodo na večer pred regato ob piranskem pomolu zavezane barke poskrbele za izredno kuliso turističnega dogodka v Piranu, ki vsako leto na obalo privabi več obiskovalcev. Barkajoli pa bomo s svojimi barkami omogočili, da bodo vsi zainteresirani gostje imeli možnost spoznati različne tipe tradicionalnih plovil zahodne Istre in Kvarnerja, beneške lagune in na splošno vzhodne jadranske obale. Lesenjače bodo tekmoval v sedmih razredih: barke s trikotnimi in tradicionalnimi jadri do sedem metrov, oba razreda jader nad sedmimi metri, razred cut boat, razred batana in dinghy. Dvodnevnu druženju, ki ga je DLSB tudi v tej izdaji spravilo pod plašč portoroške Internautike

in s tem smiselno obogatilo sejensko dogajanje, se bodo pridružila tudi starodobna vozila. Celotni program bo doživel vrhunec v soboto, 19. maja 2018, ko bo točno ob 12. uri štartala regata klasikov. Zmoti jo lahko le nepredvidljivi Eol, vse drugo je predvidljivo znotraj strogih tekmovalnih pravil, ki jih v resnici še ni.

Regata klasičnih bark z razstavo plovil ohranja primarni socialni duh, saj je druženje ljubiteljev lesenih starih in tradicionalnih bark trdno zasidrano na prvem mestu. Snidenju na piranskem kamnitem pomolu se bodo ob izbranem programu in hrani za dušo in telo pridružili tudi ljubitelji starih avtomobilov in nas v opravah popeljali v čas meščanskega Pirana. Že 40. ponovitev majske regate, ki je nastala v krogu peščice prijateljev z morja, bo vsebinsko polna, z dogodki na kopnem in na morju pa ob vstopu v zrela leta išče nove mlade podpornike in simpatizerje, da bo mladost lahko nadgradila izkušnost in modrost, potem se bo na dobrih temeljih zagotovo z lahkoto rodil tudi prvi slovenski festival morja in tradicije. Okrogli jubilej je tako prava priložnost za nov začetek nikoli končane zgodbe, ki v sebi nosi vonj po morju.

Janez Šabec,
Predsednik Društva ljubiteljev starih bark Piran

When Tradition is Revived in the Present

The jubilee, 40th traditional May Regatta of Historic Boats, organised again in cooperation with INTERNAUTICA by the Old-timer Boat Association Piran (DLSB – Društvo ljubiteljev starih bark Piran), is certain to attract between 45 to 50 beautiful classical boats from Italy, Croatia, Austria and Slovenia to Piran Bay. Several smaller boats are expected, particularly from Croatia, which is experiencing a true renaissance in renewing classical boats and constructing wooden replicas. An increasing number of so-called small boats is the logical consequence of a cross-border cooperation project, Interreg Slovenia – Croatia, with the nickname Mala barka 2 (The Little Boat 2), that professionally and financially promotes the preservation and revitalisation of Northern Adriatic maritime cultural heritage.

An important participant on the Slovene side of this cross-border project is the Old-timer Boat Association Piran, where I am the president and at the same time one of the fourteen members of the Piran Municipality-founded Centre of Excellence that controls and directs Slovene participation in this multi-year project. Through our activities, the DLSB as a Piran-based trade association organises the traditional regatta and thus supports cross-border cooperation in the best way possible.

On the eve before the regatta, the boats tied at Piran pier will once again provide an exquisite background for this tourist

event in Piran, which attracts a growing number of visitors to the coast every year. With our boats, we "barkajoli" will give all the interested guests an opportunity to get to know different types of traditional vessels from the Western Istria and Kvarner Bay, the Venetian Lagoon and, more broadly, of the Eastern Adriatic coast. Wooden boats will compete in seven categories: boats with jibs and boats with traditional sails up to seven metres in length, both sail categories above seven metres in length, and cut boat, batana and dinghy categories. A two-day social event, which again this year DLSB is organising under the banner of the Internautica Boat Show, thus providing a meaningful addition to its activities, will be further enriched with old-timer cars. The entire programme will reach its peak on Saturday 19 May 2018, when at precisely 12.00 the classical boat regatta starts. It can only be disturbed by the unpredictable Aeolus, all other matters are predictable within the strict

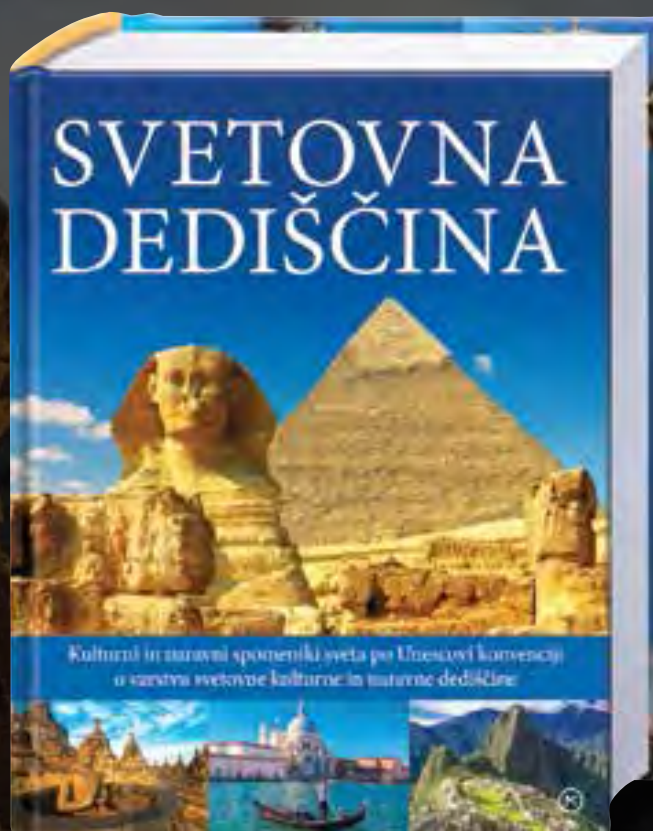

competition rules, which, to be honest, are still non-existent. The classical boat regatta and the boat show safeguard the spirit of sociality, since the gathering of enthusiasts of old wooden and traditional boats ranks firmly in the first place at this event. Meeting at Piran stone pier, and during the selected programme with its offer of food for the body and soul, they will be joined by old-timer car enthusiasts, dressed in vintage clothes, who will take us back to the times of old urban Piran. Already the 40th edition of the May Regatta, which was created among a circle of a few friends from the sea, will be rich in events on the land and water. Now entering a mature age it seeks young supporters and sympathisers, so that they can increase their experience and wisdom, and then with this solid foundation can help facilitate the birth of the first Slovene Festival of the sea and its traditions. This jubilee event is thus a real opportunity to start a never-ending story carrying the scent of the sea within it.

Janez Šabec,
The President of the Old-timer Boat Association Piran

Podjetje GOGA YCI d.o.o., ki se nahaja v Beogradu, je že 21 let eden največjih regionalnih distributerjev različnih znamk in velikosti plovil na območju bivše Jugoslavije. V svojem asortimanu zastopamo vodilne svetovne znamke plovil in navigacijske opreme kot so: Monterey Boats, Tracker in Suntracker, Cranchi, Marquis, Carver, Jobe - oprema za vodne športe. Istočasno pa smo tudi pooblaščen servis za Mericruiser, Mercury in Volvo Penta. Poleg naštetega pa razpolagamo tudi z marino na reki Donavi z 90 privezi z vso pripadajočo infrastrukturo. Na površini preko 3000m2 se nahajajo: prodajni salon, servis, in skladišče za zimovanje plovil.

The company GOGA YCI d.o.o., located in Belgrade, has been one of the largest regional distributors of various brands and sizes of vessels in the territory of the former Yugoslavia for 21 years. In our assortment, we represent the world's leading brands of boats and nautical equipment such as: Monterey Boats, Tracker and Suntracker, Cranchi, Marquis, Carver, Jobe - water sports equipment. At the same time, we are also authorized repairers for Mericruiser, Mercury and Volvo Penta. In addition, we also have a marina on the Danube River with 90 berths with all the associated infrastructure. On the surface of more than 3000m2 there are: a sales salon, a service and a storage room for the wintering of vessels.

HOMEYACHT MILAN MILOSTNIK S.P.IX. korpusa 20
6310 Izola
Slovenija/Slovenia**MILAN MILOSTNIK**+38641728688
info@homeyacht.net

Home Yacht izdeluje in oblikuje po meri izdelano posteljino, svetuje lastniku ali notranjemu oblikovalcu z idejami ter pomaga najti predloge za usklajevanje ambienta na plovilu. Home Yacht je specializiran predvsem za opremo plovil, za katera smo razvili edinstveno in široko paleto izdelkov. To je rezultat tesnega sodelovanja s stekardesami, lastniki in oblikovalci. Ročno izdelani detaili so prisotni na vseh naših izdelkih. Zagotavljanje kvalitete in točnih dobavnih rokov, je naša odlika.

Home Yacht manufactures and designs bespoke bed linen, from assisting the owner directly or the interior designer with ideas, we can also provide suggestions to achieve the desired mood and theme for each individual yacht. Home Yacht specialises predominantly in equipment for the marine and yachting industries, for which we have developed a unique and user-friendly product range. This is the result of working closely with stewardesses, owners and designers. We have certain handmade aspects included in all products, with high quality and precise delivery a top priority for Home Yacht.

PIKTRONIK D.O.O.Cesta k Tamu 17
2000 Maribor
Slovenija/Slovenia**POLONA SEKOL**+38624602250
info@piktronik.com

Podjetje Piktronik d.o.o. je bilo v tej obliki ustanovljeno leta 2000, dejansko pa začetki segajo v začetek devetdesetih let. Že od začetka se ukvarjamo z opremo za električna vozila in zadnjih petnajst let tudi z opremo za plovila. Trenutno je oprema za plovila naša daleč največja tržna niša. Našim kupcem ponujamo kompletne rešitve z močmi od 1 kW do 125 kW po enem pogonu, oziroma do 250 kW z dvema motorjema, razvijamo pa še močnejše sisteme.

The company Piktronik d.o.o. was established in this form in the year 2000, but in fact the beginnings date back to the early 1990s. From the beginning we have been dealing with equipment for electric vehicles and the last fifteen years with equipment for vessels. At present, the equipment for vessels is by far our largest market niche. We offer our customers complete solutions with power from 1 kW to 125 kW per one drive, or up to 250 kW with two drives, and even stronger systems are being developed.

Azimut Yachts Slovenija, generalni uvoznik plovil znamke Azimut in Benetti, bo na letošnji Internautici predstavil številne modele plovil Azimut. Za slovenski trg še posebej zanimivi modeli kot so Azimut Atlantis 34, Azimut Magellano 43 ter Magellano 66 in Azimut Fly 72 bodo predstavljali le del naše ponudbe. Če vas naša ponudba zanima se le oglasite na našem razstavnem prostoru.

Azimut Yachts Slovenia, dealer for Azimut and Benetti vessels in Slovenia, is going to display some very attractive models for this particular area, from Azimut Atlantis 34, Azimut Magellano 43 and 66, to Azimut Fly 72. Our yachts this year present only a fraction of our offer so in order to get more information, visit us at our stand.

S-BIKES

ZLOŽLJIVO ELEKTRIČNO KOLO

S-BIKES **F50e**

SBIKES je blagovna znamka podjetja Špan.

Uradno kolo Internautica 2018

Od trenutka, ko se boste usedli na S-BIKE, vam bo jasno, da česa takega še niste občutili. Električno kolo **S-BIKES F50e** vam bo za vedno spremenilo pogled na kolesarjenje. Potovanja bodo dobila novo razsežnost in še tako oddaljeni kraji bodo za vas postali lahko dosegljivi. S-BIKES F50e odlikuje izjemno lahko aluminijasto ohišje. Celotno električno kolo tako z baterijo in vso opremo tehta manj kot 22 kg. Po zaslugi zmogljive baterije priznanega proizvajalca Samsung vam S-BIKES pomaga pri vaši vožnji do kar **65 km** daleč v ECO načinu s samo enim polnjenjem. Polnjenje je enostavno. Poteka preko običajne hišne električne vtičnice. Baterijo pa je mogoče vzeti tudi iz kolesa in jo polniti ločeno. Dodatno uporabnost kolesa omogoča serijsko **vgrajena vtičnica USB**, ki omogoča polnjenje električnih naprav, kot so mobilni telefoni, navigacijske naprave ali prenosni računalniki. Električno kolo S-BIKES omogoča 7 različnih režimov delovanja. Od športnega programa za hiter doseg najvišje hitrosti, do ECO programa s podaljšanim dosegom.

Zmogljivost baterije (mAh)	Doseg ECO način (do 60mi)	Čas polnjenja (h)	Št. programov ali pomoči	Maksimalna hitrost (km/h)	Moč motorja (W)	Št. USB izhodov (polnjenje)	Neto masa (kg)

1000 Ljubljana
Slovenija/Slovenia**BOŠTJAN KLAMPFER**+38640212618
kalinic.milan888@gmail.com

Že v najstarejših časih so ljudje cenili zdravilne rastline in zelišča ter njihovo sposobnost pri lajšanju bolečin, poškodb in bolezni. Čaj je znan predvsem po svojih zdravilnih učinkih, saj je glavni vir antioksidantov in podpira kardiovaskularno zdravje. Vsakodnevne tegobe lahko ublažite ali odpravite že z izbiro pravega čaja. Raziskave o sestavi in učinkovitosti zdravilnih rastlin so zelo napredovale, tako da so za mnoge rastline že dokazane vsebuječe učinkovine ter zdravilno delovanje le-teh. People have appreciated medicinal plants and herbs and their ability to ease pain, injuries and diseases since ancient times. The tea is known mostly for its healing effects because it is the main source of antioxidants and it supports cardiovascular health. Everyday troubles can be eliminated or eased by choosing the right tea. The researches about the structure and effectiveness of healing plants have progressed so that for many healing plants the effects and healing substances and their functioning have been proven.

Razstavljene bomo imeli SipaBoardse iz kolekcije Drive in Air, omogočena pa bodo tudi testiranja naših desk. Drive kolekcijo odlikujeta samonapihljivost in pomožni motor SipaDrive, ki ti da dodaten pospešek za hitrejšo veslanje ali daljši čas na vodi. Air kolekcijo pa odlikuje dovršen in večkrat nagraden sistem samonapihovanja SipaAir, ki desko napihne v manj kot 5 minutah.

Exhibited will be our SipaBoards from Drive and Air collection. You will also have a chance to test our boards. Drive collection is distinguished by self-inflation system and a jet-propelled motor – the SipaDrive gives you a boost to keep you on the water longer. Air collection is distinguished by sophisticated self-inflation system SipaAir – paddleboards pump themselves up in less than 5 minutes.

maja.menart@annum-bicycles.com

Poizkusite nekaj zanimivega – leseno kolo Annum, kjer se prepletata tradicija in moderna tehnologija. Annum kolo je butično in unikatno. Na svetu ne more biti dveh enakih. V kolesu je delček duše drevesa, ki ga je obdelala skrbna ljubezen rok s svojo energijo v mali butični mizarški delavnici.

Try something interesting – The Annum bicycles where traditions and modern technology intertwine. The Annum Bicycle is unique. There cannot be two that are the same in existence. The bicycle holds a piece of the soul of the tree that was worked on with loving hands and personal energy in a small carpenter shop.

info@yacht-pool.hr

Premium Yacht Insurance by Jack Surijska je novi slogan naše agencije Yacht-Pool, vašega starega znanca, ki uspešno zavaruje barke že 25 let. Novi slogan in tudi veliko novic vendarle so nam kontakti, telefoni in naslovi ostali isti. Tudi posadka ki obravnava škode je "stara".

Premium Yacht Insurance by Jack Surijska is the new slogan of our agency Yacht-Pool, your old acquaintance, who has been successfully insuring vessels for 25 years. The slogan and many other things are new yet out contacts, phone numbers and addresses remain the same. Even the crew who deals with the damages is "old".

uros.kuzmic@triglav.si

Na morju so poleg lepih doživetij vedno prisotni tudi nepredvidljivi dogodki in vremenske razmere, razne nevarnosti in nezgode. Poskrbite za dobro zavarovanje in se ne prepustite naključjem. Od letos bolj varni tudi ZAVAROVANJEM ASISTENCE ZA VODNA PLOVILA.

A trip to the seaside is full of fun and adventure, but can also be prey to unforeseen events and changes of weather, as well as inconveniences and even accidents. Make sure you are well insured – and don't leave anything to chance. From this year, we are offering an ASSISTANCE INSURANCE FOR VESSELS to give you added security.
